

BRAKE PADS 來令片

MAGURA

Push pistons with mounted brake pads back by moving as shown with transport device.

利用舌片伸入來令片之間，將活塞推回原位，再進行更換來令片的動作。

Squeeze after installation several times the lever blade until the lever feel becomes very firm.

來令片安裝後，按壓拉柄數次，直到出現煞車手感。

The brake pads must not get in touch with oil or grease! Contaminated brake pads are killed and must be replaced! New pads need a break-in period to achieve maximum brake power!

Do this in a safe area without traffic by braking down 30 times.

來令片千萬不可沾附到任何油漬或油膏，一旦被污染，請直接丟棄並更換新的來令片。新的來令片需經過磨合才能產生最大的煞車制動力，請在安全的場所進行磨合，以30公里的時速騎乘並使用煞車約30次。
